Software Developer | Python | Java | HTML & CSS | Dart| Flutter |
WeThinkCode_ Alumni
City of Johannesburg, Gauteng, South Africa

Summary

An aspiring software developer based in Johannesburg, South Africa. With a strong passion for technology and problem-solving, I completed a Software Developer program at WeThinkCode_ and have been actively expanding my skills ever since.

Proficient in Java, HTML & CSS, Dart, and Flutter, I am always eager to learn new technologies and programming languages to stay current in the ever-evolving software development landscape. My dedication to continuous growth is further supported by my certifications in MCITP, MCTS, as well as National Certificates in Technical Support and System Support.

Throughout my previous roles as a Technical Support Technician and Technical Representative, I have gained invaluable experience in diagnosing and resolving technical issues, providing excellent customer support, and effectively communicating complex concepts to both technical and non-technical individuals.

Driven by a resourceful and adaptable mindset, I approach challenges with enthusiasm and a willingness to learn from every experience. My goal is to secure an opportunity in a company where I can further upgrade my skills and knowledge in software development, collaborating with a dynamic team to create innovative solutions.

With strong problem-solving abilities, effective communication skills, and a dedication to continuous self-improvement, I am ready to contribute to the exciting world of software development and make a meaningful impact in the industry.

Let's connect and explore how we can create cutting-edge software solutions together.
